You can reduce your tax liability!

Each year companies leave billions of dollars in federal and state tax credits and incentives unclaimed. These credits apply to large and small companies, single or multiple locations, in various industries. We have partnered with TaxBreak, a 2007 Inc. 500 recognized tax credit processor, to help you capture these lucrative tax credits and incentives worth up to **\$9,000** per eligible new hire. On average, up to 20% of hourly wage employees qualify.

***Best of all, you pay NOTHING
Unless tax credits are captured for your company!***

If you would like an estimate of yearly savings for your company today, please visit www.taxcreditcenter.com/insight and take the Tax Credit Analysis online or call us at **1-888-314-8908** to show you the program.
