Dear Bill:

I know you are always interested in our Insight success stories. The message below is an e-mail I received from one of our Florida offices:

"Kendall received a drug screen report of some sort and they only had four positive drug screens (fails) all year which she and her branch say is a result from using Insight. All other predators, drug users, etc were eliminated by Insight. They definitely see the value and now she can prove it to her clients as well. YEAH !!! Four failed drug screens out of all the people they put to work. I think that is great. "

Hope all is well with you guys.

Sincerely,

Lucille Thurman, ARM
