Re: Insight Program  
February 1, 2002

Dear Mr. Johnston,

Over the past year we have been pleased with the results that your equipment has provided us. Your screening device has enabled us to "weed out" a higher percent of undesirable candidates who in the past would have been employed.

Most notable is our improvement in the area of workman's compensation claims. We have seen an **81%** decrease in the number of claims filed since the screening has begun.

Thank you for the technology that has helped us to achieve these results.

Sincerely,

A handwritten signature in blue ink that reads "John Lazarich".  
John M. Lazarich
